ENDODONTIC WORKSHOP for the General Practitioner

Columbia University College of Dental Medicine (CDM) is a renowned dental institution, a magnet for prominent dental professionals from around the world. Their contributions, together with the efforts of our dedicated faculty, make for an exciting environment to study, conduct research and develop clinical skills.

COURSE DESCRIPTION

This intensive two-day interactive course includes lectures and hands-on, model-based training using extracted teeth. The number of participants is limited to provide for an exceptional individualized experience.

Emphasis is placed on diagnosis and access, achieving a glide path, managing curved canals, and new cleaning, shaping and filling techniques.

PRESENTERS

Dr. Diego Andrade
Instructor in Clinical Dental Medicine, CDM

Dr. Sahng G. Kim
Associate Professor of Dental Medicine at CUMC; Director, Postdoctoral Program, Division of Endodontics, CDM

Dr. Gunnar Hasselgren
Professor of Dental Medicine at CUMC and Division of Endodontics, CDM

Dr. Charles Solomon
Clinical Professor of Dental Medicine, Director, Division of Endodontics, CDM

AGENDA

DAY 1: Friday, February 26

8:30 AM Check-in desk opens

9:00 AM Morning session, topics include:
- Clinical examination: Which tests are necessary?
- What can the radiograph tell me about this case?
- Endodontic Access: Why is it important and how to achieve it. Finding extra hidden canals, e.g. MB2. Specific armamentarium and application will be addressed.

12:30 PM Lunch

1:30 PM Afternoon session, topics include:
- Scouting canals and achieving glide path.
- Managing curved and calcified canals.
- Using endodontic instruments: hand and rotary.

4:30 PM Day 1 concludes

DAY 2: Saturday, February 27

8:30 AM Check-in desk opens

9:00 AM Morning session, topics include:
- Reciprocating systems: techniques and clinical approaches.
- Managing complications, such as broken instruments, blockages and perforations.
- The importance of irrigation.

12:30 PM Lunch

1:30 PM Afternoon session, topics include:
- Systemic and intra-canal medication
- Filling techniques
- Course review, Q&A

4:00 PM Course concludes

IMPORTANT—please bring:
Extracted teeth: 1 anterior tooth, 4 molars (2 upper first molars, 1 molar with straight roots and 1 molar with curved roots).
Endo Explorer DG16, cotton plier and mirror.
Loupes optional.
