Dear Global Health Externship Attendings,

As part of our outcomes assessment efforts, we seek to evaluate the Global Health Externship experience from both the perspective of the student and the clinical onsite attending doctors. Our intention is to assure that from both perspectives the externship was of value to all involved. Further, we hope to work together to improve, if possible, the experience for all, especially the patients receiving care during the externship.

Attached is an evaluation for you to complete of each student’s performance. We sincerely appreciate the efforts of all those involved in making the externship possible, and we further note that participation is entirely voluntary and in no way required by the College of Dental Medicine. At the completion of the externship activity, we would appreciate the completion of these forms.

Sincerely,

Laureen Zubiaurre, DMD, MS
Associate Dean
